# Online Certificate Course in LEARNING DISABILITY

In association with

LEARNING  
ARC

Get insight into Learning Disability &  
Optimize your Helping Potential!

There is an increased need for trained people to help children with Dyslexia and other Learning Disabilities with increased awareness & inclusion of Specific Learning disabilities (SLD) in the Rights of Persons with Disabilities Act, 2016.

This course has been designed to strengthen the expertise and confidence of teaching professionals, tutors, parents, special educators and Psychology professionals to plan and deliver appropriate remedial programmes for individuals with Learning Disabilities. The focus of the course is developing skills for identification and management of SLD equipping the participants to work as a remedial educators to children with SLD or work in school resource centres.
