The World mental health day considered very seriously worldwide with growing awareness among the mass.

However there are various aspects which are untouched and under-rated. The awareness among the population. The role that psychology students should be taking was considered in the invited lecture.

The talk by Ms. Ashwini N.V. covered a wide range of topics that ought to be discussed in an open forum such as the which requires attention of people especially by upcoming psychologists. The themes that main spoke about the light on the current pandemic time when people of all

occupations and age groups are still bearing the brunt of the new normal. Ms. also highlighted how talks around mental health have come to the spot light like never before. There is an increased acknowledgement about the important role mental health plays after countries do not get adequate treatment for their mental health conditions

Hence the event was an eye opening reality. Mental health care is a very necessary topic that needs to be spoken out loud at all times among people. The answer to "what is the next small big thing" is what runs up the whole session.
