WORKSHOP
IN
REBT**

Date:
NOV 14 & 15, 2026

Time:
10:00 AM 4:30 PM

Venue:
IIPR-Bangalore

Mode: Hybrid Access-
In-person + Online

WHAT IS REBT?

Developed by Dr. Albert Ellis, Rational Emotive Behaviour Therapy (REBT) is one of the original cognitive-behavioural approaches and the foundation of modern CBT. It helps people identify irrational beliefs, challenge unhelpful thinking, and build healthier emotional and behavioural responses.

Workshop Resource Person

Dr. Debbie Joffe Ellis

World-Renowned Expert on REBT Columbia University

Co-author & successor to Dr. Albert Ellis

A licensed psychologist (Australia) and mental-health counsellor (New York), Dr. Debbie teaches REBT and Comparative Psychotherapies at Columbia University. For years she worked alongside her husband, REBT pioneer Dr. Albert Ellis, who entrusted her to carry his work forward. She presented worldwide and co-authored the second edition of *Rational Emotive Behaviour Therapy* (2019).

"Legend in Counseling"

Named at the American Counseling Association's national conference, 2014.

APA Demonstration Film

Featured in the American Psychological Association's official DVD on the REBT approach.

Global Citizen Award Nominee

Nominated for the APA International Division award by a former APA President & Dr. Stanley Krippner.

Evidence-Based- A validated, structured intervention model popularly used for Anxiety, depression, anger, guilt, shame, perfectionism & interpersonal relationships.

Versatile Practice- Used in therapy, coaching, education & organisations 1:1 or in groups.
